price — 8¢/image for microfiche or \$23.60/microfiche card of 270 images; I have about 4,000 pages, I believe & so the cost should be about \$300 for making the microfiche; a duplicate microfiche card is \$0.07 (C qui est extraordinaire), which means that if the complete Microfiche P.N. 85 is about 15 microfiche cards that I can have duplicates made for about \$1.05 per set of 15 cards. I will package the sets in presentation sets: a full size, hard copy of the front matter & index and a reference on the "Table of Contents" pages as to what sections of P.N. 85 are found on what Microfiche cards. That will make the microfiche cards very easy to use. I can hardly wait to see the microfiche cards. It is almost impossible for me ^{that I feel} to verbalize the enormous sense of relief at having had P.N. 85 microfilmed.

My Ph.D. Dissertation, CAAW (from its beginning, Parade Harmonie, up to final form), the complete set of "Northeastern Pennsylvania" (Created by SRP & DWP), and P.N. 85 are the works of which I am most proud. They represent, individually and collectively, significant contributions to the history of the so-called human experiment and 'in years to come' will be ^{"de plus en plus"} increasingly valued by "le monde." — went to Suchnick's and had a look at Maplewood Cemetery — the third cutting is underway and the Cemetery looks good. I was invited to supper at the Suchnick's, and accepted. Very easy & pleasant — pasta & parsley/Basil & Zucchini; salad, bread & blueberries for dessert. Mrs. Suchnick gave me some Raspberry jam & also some strawberry jam & also some cheese when I left. She loves to give me food and provisions. I always accept her gifts: it gives her great pleasure & it gives me great pleasure.
